Directions: Rt. 97 north, across from the Carroll County Regional Airport.

## **INTRODUCTION**

This directory was created to assist consumers who want to purchase agricultural products directly from the farm and to help farmers locate farm agencies, services, farm supply and implement dealers.

Farms are listed in alphabetical order and are assigned a number. The number can be used to easily identify those farms offering individual products and services by referring to the farm product and service index. In addition, most farm numbers are included on the County map (centerfold).

The availability of specific products may vary. Please refer to the approximate harvest dates for fruits and vegetables included in this directory. Call ahead to confirm product availability.

Farm agencies and services, farm supply and implement dealers are listed alphabetically under three separate sections. The farm supply and implement dealers section include listings for dealers located throughout Carroll County.

This directory is not intended to be an endorsement of any farm, service or business. Any omission is unintentional. If any farm or other related service/business not listed herein would like to be listed in future printing, please contact the Agricultural Marketing Specialist at (410) 386-2070. Please note this directory is for Carroll County farms and agricultural businesses only.

Directories are distributed through the Carroll County Department of Economic Development, Carroll County Tourism Office, the Maryland Department of Agriculture, County Extension Offices, Farm Bureaus and Public Libraries.
